

Ashot Pahlevanyan

Serial Entrepreneur · Software Engineer · Product Lead · PhD in Mathematics

Profile

Serial entrepreneur and co-founder of **VParking** and **Anjoy**, combining hands-on software engineering with product and development leadership. 15+ years of extensive industry experience across web, desktop and mobile applications, a Top-Rated freelance track record, and a PhD in Mathematics. Detail-oriented and analytical, with strong communication and a bias toward shipping quality products.

Ventures

2026 — present

Co-founder, **VParking**

Automated vertical-lift parking systems that multiply capacity up to 3× on a single footprint — seismic-ready, EV-charging optional. Product, engineering and go-to-market.

2026 — present

Co-founder, **Anjoy**

Immersive yoga and meditation retreats at curated locations worldwide — intimate groups, complete experiential arcs. Product, brand and operations.

Work Experience

Mar 2021 — present

Staff Software Engineer, **WillowTree (acquired Maark), a TELUS Digital Company**

Stack: React, Redux, Adobe Experience Manager

2015 — 2024

Software Development Manager, **Cattlesoft Inc**

Web and mobile application development management.

Jun 2020 — Sep 2020

Senior Electron & React Engineer, **Doxel Inc.**

Development of Doxel's DxUploader desktop application using Electron, React & Redux.

Jul 2018 — Feb 2020

Senior Front-End Developer, **Cattlesoft Inc · CattleMax**

Development of company web applications.

Oct 2018 — Aug 2019

Senior Electron & React Developer, **Cattlesoft Inc · TagMax Desktop**

Desktop applications with Electron, React, Node.js and Bluetooth.

May 2019 — Oct 2019

Senior React Developer, **Flexxible IT · Apps2Digital**

Development of the Apps2Digital.com platform.

Jul 2017 — Jun 2018

Senior Front-End Engineer, **Freelance / Contract**

Stack: React / Redux / Flux / jQuery / HTML5 / CSS3 / SASS / LESS / Bootstrap / Semantic-UI / Responsive Design / OOCSS / SMACSS / Atomic Design

Sep 2015 — Jul 2017	Senior Quality Assurance Analyst, goPanache QA & analysis of web and mobile applications. Trello, Pivotal Tracker, Heroku.
Sep 2013 — Feb 2016	Senior Front-End Developer, Freelance / Contract Stack: HTML5 / CSS3 / Bootstrap / Responsive Design / jQuery / OOCSS / SMACSS / SASS / LESS
Nov 2014 — Dec 2015	Bioinformatician & Systems Administrator, Dept. of Pharmaceutical Biosciences, Uppsala University, Sweden Research on drug dependence & molecular neuropsychopharmacology. R / Bioconductor / Python / Statistics.
Jul 2013 — Nov 2014	Research Scientist, Dept. of Mathematics & Mechanics, Yerevan State University Grant: "Groups with periodic defining relations. Embeddings and Automorphisms."
Feb 2012 — Jul 2013	Software Quality Assurance Engineer, LTX-Credence Corporation Test automation, GUI automation — Perl, Win32::GuiTest, manual & regression testing, test-matrix creation.
Sep 2008 — Dec 2011	R&D Engineer, Yerevan Computer Research Development Institute C++, C#, Microsoft SQL, 2D / 3D game programming, automation.
Sep 2008 — Jul 2011	Teaching Assistant, Dept. of Mathematics & Mechanics, Yerevan State University Algebra I & II, Group Theory I & II, General Mathematics.

Education

2011	PhD, Dept. of Mathematics & Mechanics, Yerevan State University Thesis: "On monomorphisms and automorphisms of free periodic groups." Supervisor: Varuzhan Atabekyan
2008	MSc in Mathematics (honors), Yerevan State University Thesis: "Embedding of absolutely free groups into groups $B(m,n,1)$."
2006	BSc/MSc in Mathematics (honors), Yerevan State University Thesis: "On hyperbolic groups."

Tech Stack

Back-end

- Node.js / ES2015+ / Express
- MySQL / MongoDB / PostgreSQL
- Objection.js / Knex.js / Sequelize / Mongoose
- REST API design / GraphQL
- Postman / Heroku · apiDoc / Swagger / JSDoc

Front-end

- JavaScript / TypeScript / ESNext
- React / Redux / Redux-Saga / Reselect / Jest / Enzyme
- Electron — macOS, Windows & Linux
- HTML5 / Bootstrap / Material UI / Semantic UI
- CSS3 / SASS / LESS / OOCSS / SMACSS / Styled Components
- Responsive & cross-browser / cross-device

Quality Assurance

- TDD / BDD
- Jasmine / Mocha / Chai / Karma / Jest / Enzyme
- Web & mobile application testing
- Perl GUI testing / test automation / test matrices

Product & Project Management

- Managing small teams
- Trello / Asana / Jira / Pivotal Tracker / MS Project
- Spec & documentation development
- Top-level customer communication

Languages

English (fluent) · Russian (fluent) · Armenian (native)

Scholarships & Prizes

2007, 2008, 2010	One-year scholarship (×3), “Research Mathematics” foundation, National Academy of Sciences of Armenia
2008	Best Young Researcher Award, “Vardanank” foundation

Selected Publications

2011	The Fibonacci automorphism of free Burnside groups A. S. Pahlevanyan — RAIRO – Theoretical Informatics and Applications, Vol. 45:3, pp. 301–309.
2013	On normal automorphisms of n-periodic products of finite cyclic groups V. Atabekyan, A. Gevorgyan, A. Khachatryan, A. Pahlevanyan — International Journal of Group Theory, Vol. 2:3, pp. 39–47.
2011	On automorphisms and embeddings of free periodic groups A. S. Pahlevanyan, H. R. Rostami — Journal of Contemporary Mathematical Analysis, Vol. 46:2, pp. 106–112.

Hobbies & Interests

Hiking, travelling, canyoning, snorkelling, swimming (2nd prize, Youth Armenian Water Polo Championship), classical music, jazz, playing piano, accordion and harmonica, ballroom and Latin dances.
